Snake River Falls

- Among Nebraska's most spectacular waterfalls, Snake River Falls tumbles over a 54 foot wide ledge and flows 12 miles to the Niobrara River. When the Snake River is full, it is the largest waterfall in Nebraska by volume
- The waterfall is located 23 miles southwest of Valentine on Highway 97. Only 3 miles from Merritt Reservoir
- Because access to the falls is on private property, it is not well marked. Your turn will be on the west side of the road about a 1/4 of a mile after the canal crosses the highway. Watch for a large water tank and a few trees. This will be your cue to turn.
- You can view the falls from trails that will take you on both sides of the Snake Falls Sportsman's Club building.
- Admission is only \$1.00, and there is a pay box in front of the Sportsman's Club building

Please be respectful of the property when you visit.
We are privileged to be able to have this beautiful sight open to public access, and would appreciate every effort to adhere to all posted restrictions.

Cottonwood Lake

In 1985, the Nebraska Game & Parks Foundation accepted the gift of the 7,202-acre Bar 99 Ranch from the estate of former U.S. Senator Eve Bowring. She stipulated that the land was to remain a working ranch, maintaining the ranch's prize herd of Herefords.

Cottonwood Lake campground is located nearby and offers many camping amenities along with power boating, fishing, bird watching and picnicking. Its remote location makes it an excellent place to see the stars and get away from it all.

Opened in 2017, Frederick Peak Golf Club boasts 10 of the most fun golf holes that you will ever play. The dramatic canyon landscape carved out by the Minnechaduzza Creek is ideal for golf. The area's natural beauty blends perfectly into the course to create an unheralded outdoor experience.

FALL 2019 ENROLLMENTS

Have you seen THIS?

* THE NEBRASKA STAR PARTY * JULY 24~29, 2022 *

There was a time when one could step outside the door and look up to see a panorama of jewel-like stars stretching from horizon to horizon in an endless parade as the seasons changed. Nowadays, man-made light has obscured most of the universe above our cities, even in our rural communities.

Ah, but the Nebraska Sandhills still hold vast stretches of prairie without a light to be seen, resulting in some of the darkest skies you'll find over the face of the Earth. And once each year to these dark skies come hundreds of men, women, and children on a quest to see the amazing expanse of the night sky as our ancestors once knew it.

They come with telescopes and binoculars, or with nothing more than their own two eyes. Some arrive armed with an intimate knowledge of the stars; others, mere curiosity and a sense of wonder. For one week each summer they gather to greet the hours between sunset and dawn with amazement.

And they party!

Here is your invitation! The week-long Nebraska Star Party is a vacation for the entire family, with ample opportunity for recreation, entertainment, and shopping during the day, and the magic of the sky at night.

Whether you're a veteran star gazer or you've never even looked through a telescope, plan to spend the week with us for an unforgettably fun, economical, and educational vacation under the stars! Check out all of the details at:

WWW.NEBRASKASTARPARTY.ORG
